**FORENSIC IMPRESSIONS  
DOCUMENTATION & RECOVERY**

By  
Jan Johnson, CSCSA  
Retired Senior Crime Laboratory Analyst  
Certified by State of Florida in Crime Scene  
Analysis and Bloodstain Pattern Analysis  
Certified by IAI  
in Crime Scene Analysis  
President of Forensic Pieces, Inc.

**ABOUT YOUR INSTRUCTOR:**

Jan Johnson is retired from the State of Florida with over forty years of experience in law enforcement. After ten years with the FBI, Jan made the transition to crime scene analysis. She is recognized by the International Association of Identification (IAI) as a Certified Senior Crime Scene Analyst (CSCSA) and worked for FDLE in Pensacola, Florida for over twenty-two years. As a laboratory analyst and crime scene examiner, Jan's field of experience includes detection, collection, and preservation of physical evidence, bloodstain pattern analysis, trajectory analysis, buried body and skeletal remains recovery, clandestine laboratories, and numerous other procedures involving crime scene investigations. Due to her expertise in bloodstain pattern analysis along with crime scene reconstruction and analysis, Jan has testified in hundreds of criminal cases as an expert witness. Before retiring in 2004, she spent three years with the Escambia County Sheriff's Office as the Supervisor of the Crime Scene Latent Print Units, as well as overseer of ECSO's state-of-the-art Crime Laboratory, which she designed. Jan also served in the highly distinguished role of President of the IAI in 2004, Chairman of the Board in 2005, and considers herself honored to have been on the IAI's original Crime Scene Certification Board. Jan served as the President for the Florida Division of the IAI in 2007 as well as Chairman of the Board in 2008 and continues to serve on various committees within both the IAI and Florida Division of the IAI. Jan has taught numerous courses in the areas of both Crime Scene, Bloodstain Pattern Analysis, Shooting Reconstruction and Crime Scene Reconstruction, to name a few, here in the United States as well as abroad, including Canada, South Africa, Brazil, Bermuda, Costa Rica, and El Salvador.

JAN JOHNSON, CSCSA

## COURSE DESCRIPTION:

This interactive and comprehensive 24-hour workshop will provide participants critical training in the proper recognition, documentation and recovery of invaluable forensic impression evidence that may be left at a crime scene. This course will include hands-on practical exercises on the proper techniques of collection and documentation of impression evidence with the purpose of enhancing the investigators skills to properly complete during their crime scene analysis. These hands-on exercises will be augmented with actual case and lecture material as well as a court-presentations for the ultimate purpose of completing the forensic puzzle. On the chance that this evidence is available at the scene, when it is collected, documented and stored properly could be the pieces needed to solve the case. This hands-on workshop will allow the participants to work individually and in small groups as they acquire the necessary knowledge and skills required of a crime scene technician to properly collect and document impression evidence. The impression evidence that will be analyzed will include many types of scenarios and surfaces that it can be collected from. This course satisfies the International Association for Identification's for 24-hours of Basic Crime Scene Analysis course for the purpose of the requirements for acquiring Crime Scene Analysis Certification by the IAI, and for certification hour.

## **COURSE TOPICS:**

- ❖ Tool Mark/Impression Evidence Recovery & Practical Exercise
- ❖ Bite Mark/Impression Recovery & Practical Exercise
- ❖ Fabric Mark/Impression Evidence Recovery & Practical Exercise
- ❖ Footwear Mark/Impression Evidence Recovery & Practical Exercise
- ❖ Tire Mark/Impression Evidence Recovery & Practical Exercise
- ❖ Finger/Palm/Barefoot Mark/Impression Evidence Recovery & Practical Exercise
- ❖ Dust Print Mark/Impression Evidence Recovery & Practical Exercise
- ❖ Courtroom Presentations

## **WHAT TO BRING TO CLASS:**

Casual attire is suitable. A digital camera with an external flash, sync cord, and tripod is required per student in attendance for documentation. This class cannot be completed without these materials. A laptop computer with PowerPoint capabilities for courtroom presentations and note-taking is also recommended but not required.

## **WHO SHOULD ATTEND?**

This is a complete introductory to intermediate course that requires no previous training. It is specifically designed for the Crime Scene Investigator or Analyst designated to be responsible for the detection, documentation, and collection of impression evidence encountered at crime scenes for the purpose of reconstruction. This course is taught in a manner in which the Crime Scene Investigator or Analyst can easily understand.
